- Carrying out manual inspections
- Following workplace processes and maintaining documentation

SKILLS / EXPERIENCE

- Proficient in Fanuc machine controls
- Competent and efficient in programming, setting and operating CNC multi-axis lathes
- Ability to operate more than one machine
- Experience manufacturing high precision components
- Have experience in working to fine tolerances and high quality surface finishes
- Experience working with Aerospace Alloys, Stainless Steel, Inconel, Titanium and Magnesium

PERSONAL ATTRIBUTES

- A team player – able to communicate well and work flexibly
- Competent and able to work efficiently
- Professional attitude
- Enthusiastic and self-motivated

ADDITIONAL INFORMATION / BENEFITS

- Standard hours of work are Monday to Friday – 8.00am – 5.00pm
- 20 days holiday, increasing to 25 days after one year's service (plus bank holidays)
- On-site parking
- Overtime available
- Competitive hourly rate
- EAP scheme
- Workplace pension
- Company gym
